## A cultural journey through the Murau region

The cultural heritage of the Murau region is lovingly cultivated and actively practised throughout the region with many traditions and customs, some of which are also listed as UNESCO intangible world cultural heritage, without appearing old-fashioned. Traditional events, such as the Samsonfest organised by the Bürgergarde and the Almbtrieb in Lachtal, attract a large number of culture enthusiasts every year. Historical treasures, such as the Benedictine monastery in St. Lambrecht, the town of Murau - where beer culture has been cultivated for 500 years - and the town of Oberwölz, as well as the castles and ruins of the region, are popular excursion destinations!

We cordially invite you to experience a piece of culture with us!

Everything that remains of the past has been collected here. There are no fine treasures or valuable antiques, but rather furniture, machinery, vehicles, everyday items and utensils to provide a window into what the Krakau area once looked like and how people lived. It's all brought vividly to life in several different exhibit rooms. There's an old loom your great-grandfather might have used, an oven from long ago, a small chamber for a maid and a farm boy, and a guest room from the days when tourism was a rarity. The "threshing floor" offers an overview of the countless different work tools and equipment.
